This act was appreciated by the institution.

The students also collected donations for this noble cause. 14 students contributed Rs. 1640/-

12 students accompanied their class teacher Dr. Sandhya Pandit on this visit. The students were shown the centre and the facilities provided to the children. It was a learning experience for the students and they were quite overwhelmed to see how independent the children were inspite of their physical challenges and the love, warmth and care shown to these children.

Outcome: The students learnt to value the things they have and understood the importance of being blessed with a healthy body. They learnt resilience from the children and how to keep smiling under any circumstance.
