START-UP CLUB CATALOGUE

STARTUP DETAILS- Started 3 years ago

BRIEF PROFILE OF ENTREPRENEUR- My name is Samina Kausar and i am following my passion for blogging and influencing.as from my childhood till now I found myself a foodie person and I love exploring different food around cities that's the reason I have started food blogging from Instagram.

PRODUCTS / SERVICES - Food blogger

CONTACT DETAILS- 9373475970

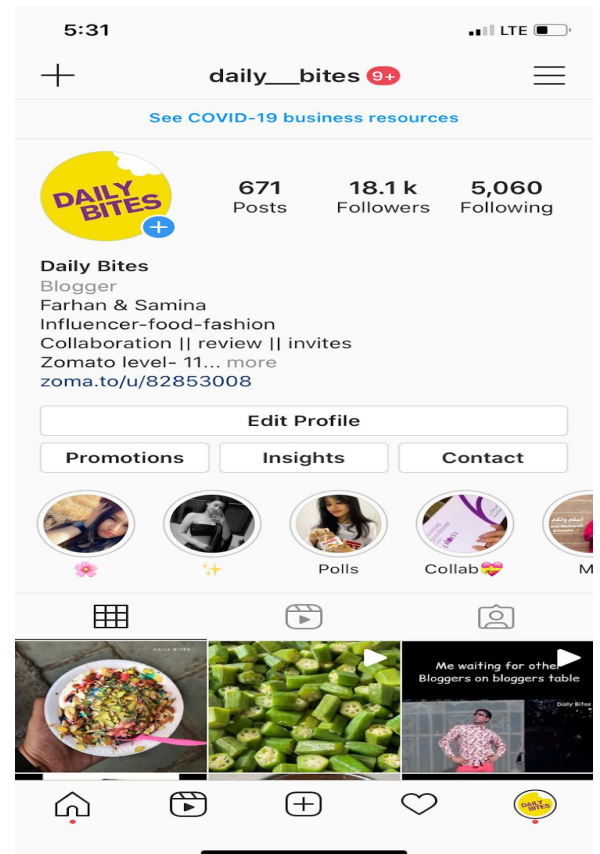

SOCIAL MEDIA HANDLE- Instagram. daily__bites

Product or Service Overview/Details:

Food blogger and content creator.

Food blogging represents a complex interweaving of “foodie” or gourmet interest in cooking with those of blog writing and photography.

The majority of my blogs use pictures taken by me. I am having my Instagram page where I upload my blogs reviews and pictures of food which I have tasted and found worth having it for my followers. Soon I have started getting invites from different restaurants and cafes for tasting their food and advertising their place on social media platform.my Instagram handle is close to14,100 followers. Besides being a blogger on Instagram I'm a reviewer of food and places on Zomato.com and google review as well. Which is very useful for restaurants and cafes to show their ratings to their visitors and customers.my Zomato level is 11 and soon to be 13 the highest level. While doing this food blogging, I found myself interested in cooking, so I have started experimenting recipes and making videos of them for my followers. Also, I am a jolly person. I love cracking jokes, so I have decided to create content for my followers to laugh at and I am having another page for comedy memes.my Instagram page for this is followed by 2,254 followers.

 grapheanalysis@gmail.com

GRAPHE

This was really good! Normally I don't read up believe in a lot of astrology or psychology experiments telling someone who they are because the points are so common, but this was totally different. Each point in the analysis was very specific to me and some aspect of who I am. Many things I did know about but many things I released were true about me after I read this. I loved it!

to me v

I was smiling while reading it because 90% of the analysis is totally me. You've not just met my expectations but also impressed me. Really loved this exercise.

Warm regards,
 Sneha
