Revised Syllabus for F.Y.B.Sc. (2023-2026)

A meeting of the Board of Studies of the Department of **Computer Science**, St. Mira's College for Girls, Pune was held on **25th May, 2023.**

The Agenda of the meeting was to:

1. Discuss the new syllabus of Computer Science for the F.Y.B.Sc **Introduction to C Programming, Advanced C Programming Techniques, Database Management System, Introduction to Python Programming, Computer Science Practical-C Programming and PostgreSQL, Computer Science Practical- Advanced C and Python Programming.**
2. Discuss the outcomes of the syllabus.
3. Discuss the internal assessments pattern.
4. Approve the syllabus.

The Minutes of the Meeting are:

1. Ms Swati Pulate Started the meeting with the introduction of new BOS members for the academic years 2023-26. The proposed credit structure was shared with everyone for the clarity of credits and courses offered for the syllabus framing.
2. Ms Swati read the contents of Computer science paper 1, Introduction to C Programming, Advanced C Programming Techniques.
3. Ms Smita Borkar read the contents of Computer science paper 2 DBMS, Introduction to Python Programming
4. Ms Swati Pulate read the contents of a practical paper of computer science.
5. Suggestions:

Following decisions were taken by the BOS Members -
Semester: I   Course Type: Major   Course Title: Introduction to C Programming,, Database Management System, Computer Science Practical-C Programming and PostgreSQL,

1. The syllabus of major subject computer science paper 1 has been approved by all BOS members.
2. The syllabus of major subject computer science paper 2 has been approved by all BOS members.

3. The syllabus of the major subject computer science practical paper has been approved by all BOS members.

Advanced C Programming Techniques,Introduction to Python Programming, Computer Science Practical- Advanced C and Python Programming.

1. The syllabus of major subject computer science paper 1 has been approved by all BOS members.
2. The syllabus of major subject computer science paper 2 has been approved by all BOS members.

<u>Syllabus Revision for F.Y.B.SC. (2023-2026)</u>

A meeting of the Board of Studies of the Department of **BSc Computer Science**, St. Mira's College for Girls, Pune was held on **2/6/ 2023.**

The Agenda of the meeting was to:

1. Discuss the new syllabus of VSC, SEC, IKS, Minor, OE for the **F.Y. B.SC. Number Theory and Matrix Algebra, Discrete Mathematics, Ancient Indian Mathematics, Mathematics Practical using C language, Linear Algebra, Graph Theory, Mathematics Practical using Scilab and Maxima, Mathematics Practical using Maxima**
2. Discuss the Course Outcomes of the syllabus.
3. Discuss the internal assessments pattern.
4. Approve the syllabus.

The Minutes of the Meeting are:

1. The committee discussed the revised syllabus and the titles for Semester I and II.
2. The Course content and structuring of the units was discussed.
3. Allotment of lectures per unit was discussed.
4. Relevant reference books and e-resources were discussed.
5. Gitanjali Phadnis thanked all the members for their presence, valuable inputs and cooperation.

Following decisions were taken by the BOS Members for each of the courses below–

Semester: I   Course Type: VSC   Course Title: Number Theory And Matrix Algebra

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.
2. Recurrence relation topic was suggested to add in the syllabus.

Semester: I   Course Type: OE   Course Title:Discrete Mathematics
1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.

2. Graph Theory introduction and basic types were suggested to add in the syllabus.

Semester: I   **Course Type: IKS**   **Course Title: Ancient Indian Mathematics**

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.
2. Topics were suggested to add in the syllabus as square root method, cube root method, Bodhyanasubhasutra, Pell's equation, work done by different Indian mathematicians.
3.

Semester: I   **Course Type: SEC**   **Course Title: Mathematics Practical using 'C' Language**

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.

Semester: II   **Course Type: Minor**   **Course Title: Linear Algebra**

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.
2. To add orthogonal vectors.
3. To keep Linear Algebra as minor as it is pure Mathematics subject.

Semester: II   **Course Type: OE**   **Course Title: Graph Theory**

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.
2. Addition of Planarity and Coloring in Graphs topics were approved.

Semester: II   **Course Type: VSC**   **Course Title: Mathematics Practical using Scilab and Maxima**

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.
2. To explain Graph Theory concepts in the practical as these students will not study this subject.

Semester: II   **Course Type: SEC**   **Course Title: Mathematics Practical using Maxima**

1. Discussion pertaining to the Course Outcomes of the paper to be taught for the F.Y.B.SC. syllabus took place.
2. To explain Linear Algebra concepts in the practical as these students are not going to learn Linear Algebra subject.

3. The practical suggestions by BoS are framed and discussed under SEC.

Following decisions were taken by the BOS Members for each of the courses below –

Semester: I   Course Type: VSC   Course Title:Digital Systems

    1.   Discussion pertaining to the basics in digital systems required to understand the logical working of a computer system to be implemented .

    2. To include different number systems, their interconversions, Logic gates, Boolean Algebra, K-Maps.

    3. Brief concept of combinational circuits and sequential circuits.

Semester: I   Course Type: OE   Course Title:Fundamentals of Computer Systems

1. Basic computer hardware to be introduced for better understanding of the components used in computers.
2. To include study of different components in the motherboard, network devices.
3. Discussions related to fundamentals of computer logic.

1. Practical to be based on the basic digital circuit using hardware circuits as well as simulation software.

2. Paper pen based practicals included to improve problem solving and design skills.

3. Encourage to perform small projects.

1. Computer instrumentation to include all basic electronic components and sensors.

2. Introduction to signal conditioner and data converter.

1.   Practical to include the study of different semiconductor devices and their characteristics.

2. Working of opamp and data converters.

1.   Discussion on the topics related to CPU and I/O organization.

2. To introduce different types of microprocessors and study Pentium processor

1. Discussion on practicals related to hardware components and networking devices.
2. Paper pen based practicals included to improve writing skills.
3. Simulation practicals and virtual lab introduced .
